AN NTT GROUPS PRODUCT

AI Voice Calling System

A white-label AI phone line that knows when to hand over to a person.

NTT Groups

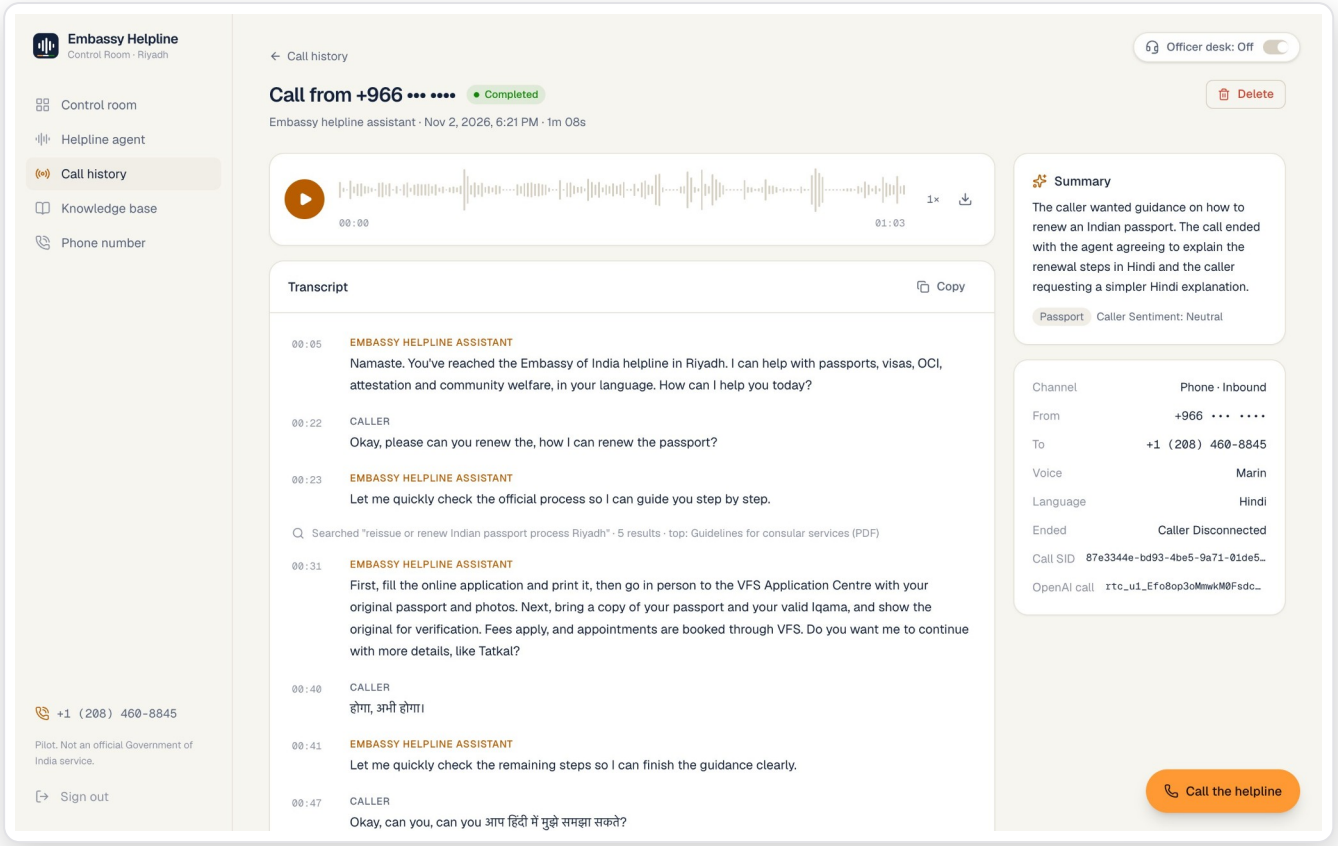

THE PROBLEM

Helplines hear the same questions all day, in many languages, and urgent callers wait in the same queue as everyone else.

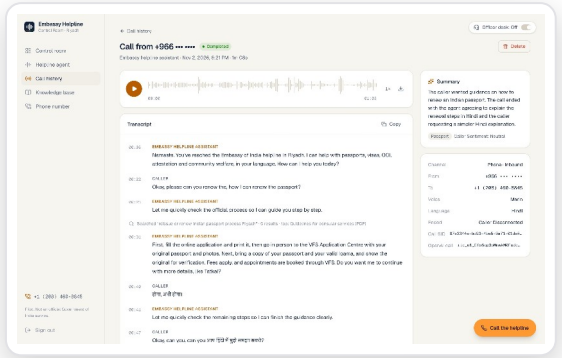

THE IDEA

It answers every call at once, in the caller's language, speaks only from official information, and passes urgent cases straight to an officer.

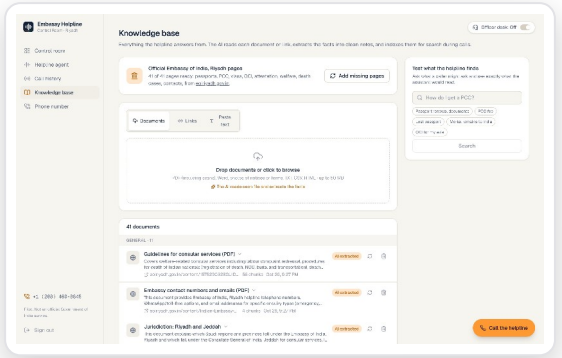

What it does

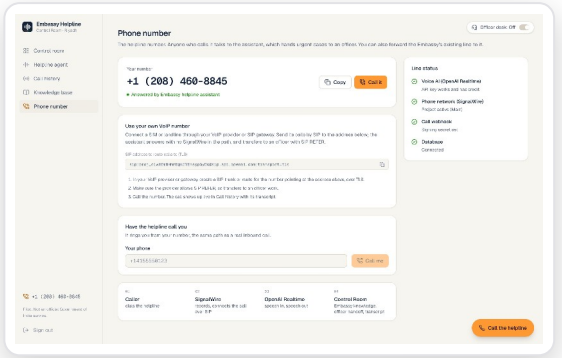

Speaks their language

English, Hindi, Malayalam, Tamil, Telugu, Urdu and Arabic.

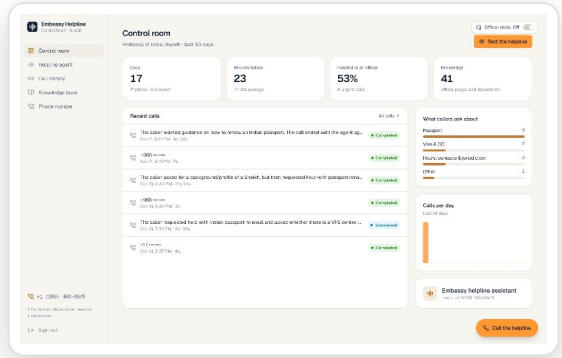

Only official answers

It answers from the organisation's own pages and documents.

People for what matters

Urgent calls go straight to an officer.

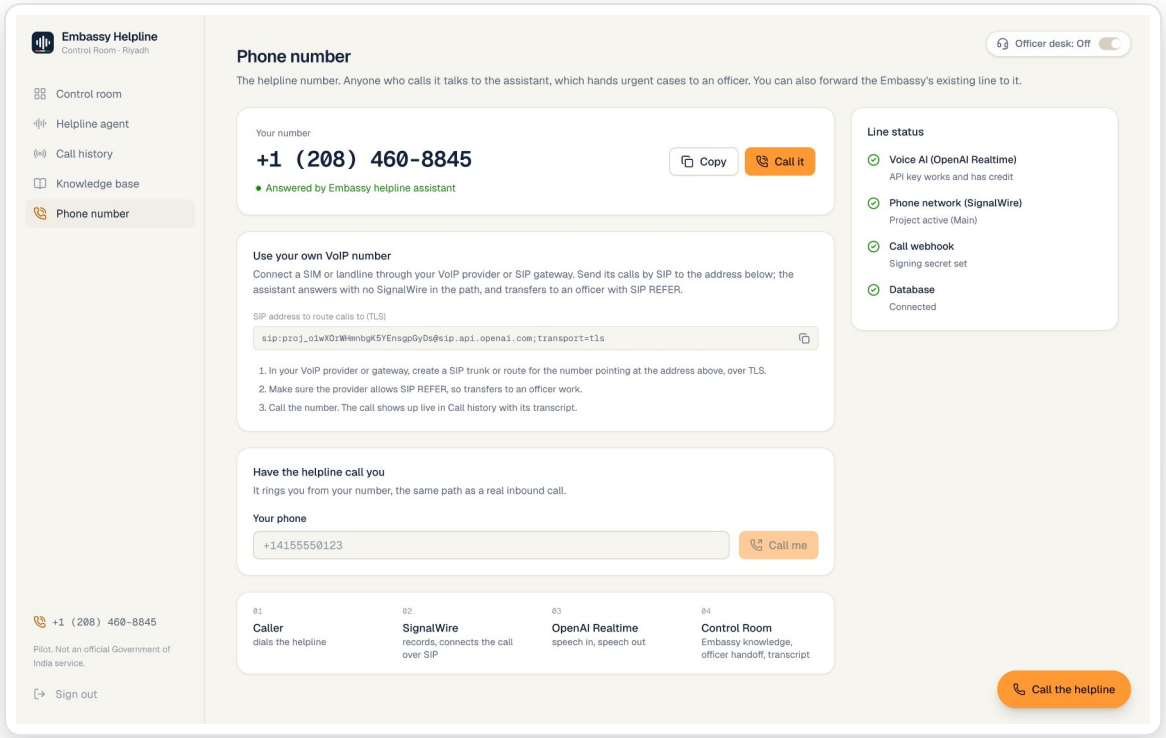

One control room

Every call, transcript and topic in one view.

Who it’s for

- Embassies and consulates
- Public services and helplines
- Any organisation with a busy phone line

First pilot: Indian Embassy helpline, Riyadh. Not an official Government of India service.
